

Here is my submission of the design task, April 2025.

I'll start off with my references as they are the easy one.

All images used on this design is my own, except the provided product file of course. I am the photographer.

I have used some of the free buttons and other resources in Figma design kits like:

Simple Design systems

Material 3 Design Kit

Ios 18 and Ipad 18

I have also used: <https://webaim.org/resources/contrastchecker/>

To check my colors

I have been influenced some by web pages like:

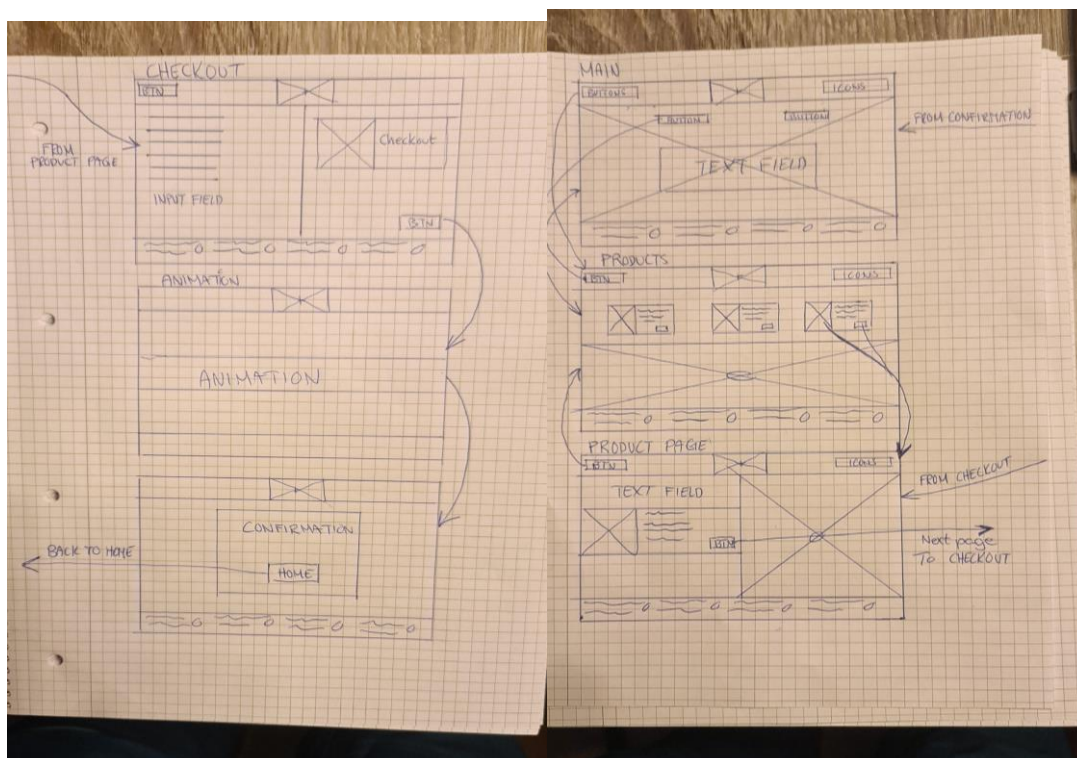

<https://www.norrone.com/nb-NO/>

<https://www.haglofs.com/nb>

<https://harkila.com/nb-no>

As I find their designs amazing and I am also a customer there.

To create the animation in my checkout process I've had great help from a YouTube video by a creator called DS CODE, and some guidance from AI (DeepSeek)

Now for the prototypes.

First up is mobile version:

<https://www.figma.com/proto/GijFt2ylQpPX7vlicy2xBu/RainyDays-Mobile?node-id=0-1&t=tjUPjmob6yl94fbv-1>

And desktop version:
